

Corporate Olive Oil Experiences

Curated olive oil tastings designed for client events, executive gatherings and team building programs. Each experience is tailored to your brand, audience and objectives—combining education, storytelling and refined hospitality.

A Corporate Experience, Not a Standard Tasting

Unlike conventional food tastings, each seminar is designed with corporate dynamics in mind:

- Engaging but structured
- Educational without being academic
- Adaptable to diverse international audiences

The result is a sophisticated experience that encourages conversation, shared discovery, and connection.

Experience Formats

- Mediterranean discovery tasting
- Old world versus new world
- Sensory aroma experience
